Meeting Report

1. AC.1 held its last meeting in Paris, France, 10-12 November. The meeting served to identify what of its work program was to be transferred to CEFACT Techniques and Methodologies Working Group (TMWG). This was accomplished by going through the details of a draft business plan (as contributed by X12/SITG). AC.1 continued the work and prepared a new draft as input to TMWG.
2. In order to assist TMWG in a quick start-up, the group also prepared a set of draft "Terms of Reference" and procedures (which included a administrative team structure) for input to TMWG.
3. AC.1 also continued its work on the Catalog Model to clean up some inconsistencies as well as outlining in more detail the examples of two possible scenarios. A new revision (number 11) should be available from TMWG by the end of February.
4. AC.1 disband itself on Wednesday, 12 November 1997.

CEFACT Migration Statement

5. In light of the above action the migration from GE.1 to CEFACT in the area of "Research, Strategic Advice and Implementation Planning" is now complete.
